BELIEVE PACT FOR FOUR YEARS TO BE REACHED

Temporary Agreement May Run Until Renewal of Washington Treaty

DELEGATES IN GENEVA

Pessimism Prevails in American Quarters; Speedy Climax Anticipated

London July 28—As the tripartite naval conference in Geneva resumes the belief prevails in London today that the way has been opened for adjusting the difficulties between the United States and Great Britain on the question of cruisers and that an agreement for at least four years will be reached

The basis for this feeling is the statement of Sir Austen Chamberlain in the house of commons that the British government is willing to make a temporary arrangement about the immediate future of cruiser buildings which is interpreted here as meaning that Great Britain offers no objections to the United States building as many large cruisers as congress will approve between now and 1931 when the whole question of naval strength will be reconsidered

Indorsed by Press

Under such an agreement the United States would achieve superiority in heavy battle cruisers, while Great Britain would concentrate on building light cruisers which are considered essential for commercial protection

Naval parity between the United States would be lacking during the period of the temporary agreement although as Sir Austen pointed out yesterday Great Britain wont abandon the principle of maritime equality in perpetuity

Sir Austens statement has been indorsed generally by the british press

ONLY PESSIMISM FOUND IN GENEVA

Geneva July 28—The Hon W C Bridgeman and Viscount Cecil Bridgeman delegates to the tripartite naval conference arrived back in Geneva from London this morning and made early courtesy calls upon Hugh Gibson chief of the American delegation and Viscount Admiral Saito, head of the Japanese delegation A conference between the six chief delegates was expected this afternoon

British officials admitted their stand was not changed materially and to American quarters pessimism prevailed and it was anticipated that a speedy climax to the conference might be expected

Even the most optimistic observers anticipate that the conference will achieve nothing further than a diplomatic agreement for partial limitation for naval building between now and 1931 when the Washington treaty will be up for renewal

General opinion here is that the chief reason of the British delegation's visit to London was to get public approval of their intransigeant stand on the question of cruisers

Aimee's Mother Again Questions Truth of Daughter's Strange Kidnaping

LOS ANGELES July 28—Aimee Semple McPherson's story of her Mexican kidnaping came to life again today with the evangelist's mother openly questioning the truth of her daughters narrative

Mrs Minnie Kennedy mother of the red haired pastor of Angelus Temple publicly doubted the kidnaping story after Mrs McPherson had ousted her from management of the temple

I have never been able to get the truth about the kidnaping of Sister Mrs Kennedy remarked I knew when she was found at Douglas that something was wrong, but I've never been able to find out the truth

Three statements of Mrs Kennedy sent the evangelist into a swoon and today her emotional fears betrayed her anguish over the widening breach between her mother and herself

Aimee Stunned

I am stunned by mothers words Aimee gasped, but no matter what anyone says about the kidnaping they cannot change the facts

The evangelist carefully explained that the ousting of her mother from the temple management had been demanded by the Angelus Temple congregation I have had no quarrel with mother she insisted It is the church committee representing the church that is making certain demands on Mother not me

Mrs Kennedy above Aimee McPherson below

A sinister influence is trying to alienate her daughter's affections Mother Kennedy declared

When Kenneth Ormiston former Angelus Temple radio operator came back I tried to get the truth and things cleared up about the kidnaping but he did not Mrs Kennedy went on I felt there was some evil influence working behind things then and that same sinister and mysterious force is working Since he left this way now

Has Several Proposals

Although temple leaders indicated Mrs Kennedy would not be allowed to resume control of church finances several proposals were made to her today They were the following A tour of the Holy Land at the expense of the church a return to Angelus Temple in a private capacity private social session each and possible reconciliation with her husband W Whittlesk of New York City

In view of Mother Kennedys threat on return her daughter that she would break and crush Mrs McPherson it was thought unlikely that the militant mother of the evangelist would quietly retire surrendering without a struggle her half interest in the million dollar Four Square Gospel church

Mrs Kennedy accused her daughter of double dealing She charged that while her daughter was encouraging the leaders of the temple rebellion she was also sending her reassuring messages

SLAYS BROTHER AGENT AFTER HEARING GOSSIP

Dry Officer Breaks Down When He Is Grilled for Six Hours

Hagerstown Md July 28 —Learning a week ago that gossip connected his wife's name with that of Hunter R Stotler 32 Keyser W Va prohibition agent R L Walters Hagerstown agent, planned several acts of avenging himself on Stotler before he took the man to a lonely road near Boonsboro Md late Tuesday and shot him to death State's Attorney Harper Ballentine said here today

Walters broke down and confessed the murder after nearly six hours of grilling, at first steadfastly maintaining that Stotler was shot by bootleggers while the two agents were on a raid

Walters told Ballentine that when he first learned of the alleged intimacies he decided to confront Stotler with the charges in public then shoot him Later he decided that there was a possibility he could cover up the crime so let his action to a deserted road There Walters said he accused Stotler of the relationships with his wife, and shot him to death

Walters first story told of a running gun battle with bootleggers in which Walters himself was wounded This wound, a minor one was self inflicted Walters confessed

Walters is being held here without bail, on an open charge to await a decision of the coroners jury which will hold an inquest tonight

MERCURY AT 88

Official Thermometer Here Registers Six Below Season's Record

Although weather reports from various localities indicate that the torrid wave spreading over a wide territory promises to establish one of the season's records temperature in Marion has not sent the mercury to any unusual mark thus far

At 2 o'clock today the government thermometer registered 88 degrees, Dr. E H Raffensperger official weather observer, reported This is six degrees below the high mark established about two weeks ago

Humidity contributed to general discomfort of Marion residents but at the same time provided basis for the official forecast which predicts thunderstorms with a promise of cooler weather for Friday.

HOUSECLEANING SCHEDULED FOR U. S. DRY FORCE

Federal Prohibition Machine To Be on New Plane Oct 1

WILL REDUCE STAFF

Unfit Agents and Undignified Methods Lose Popularity with Treasury Department

Washington July 28 Housecleaning in the federal prohibition service will be completed before Oct 1 it was announced at the treasury today

Federal law enforcement is to have been notified to survey their personnel and submit to Commissioner H M Doran lists of negative subordinates and agents they desire to retain

The weeding out process will eliminate many agents and others for the prohibition machine and probably bring about a considerable reduction of the force Surveys disclose that a large number of unfit agents are in the service The treasury is taking advantage of the early application of civil service regulations to get rid of them

To Discourage Shooting

By the time the reorganization is complete Doran will put into effect a new set of regulations governing the subject on and off duty of prohibition agents Strict observance of all phases of the federal law will be required enforcement of the prohibition act with indiscriminate use of firearms that would endanger life operation of speakeasies as lures to catch offenders and use of extreme third degree methods taboo

The personnel question has been left largely to administrators Appointments recommended will be approved by the treasury in most cases according to officials Administrators simply are required to confine appointments to men who have made application for examination under the civil service law Whether or not they have qualified is not considered

Will Increase Pay

An important result of the reorganization will be a reduction in the force of prohibition agents But "GHQ" has approved the plan of a smaller but better paid force Several administrators will cut their forces in half and double the pay of those retained

Drastic changes are to be made in the personnel of the New York City and Buffalo dry squads a reorganization now being in progress under the orders of Seymour Lowman, of New York to be sworn in Monday as assistant secretary of the treasury

BYRD MAKES PLANS FOR FLIGHT TO SOUTH POLE

Gathering of Scientific Data Prime Purpose of Daring Expedition

Boston July 28 Commander Richard E L Byrd conqueror of the air route to the North Pole and of the transatlantic air line was engaged today in planning a flight over the South Pole

Floyd Bennett and Bert Balchen arrived from New York to-day with Commander Byrd details of an air expedition to the Antarctic

Gathering of scientific knowledge rather than the flight over the South Pole will be the chief purpose of the new Polar expedition according to Commander Byrd

Date of the take off probably will be announced next week

The South Pole expedition will be composed of some 30 men, according to Commander Byrd In the party will be 12 scientists

The greatest obstacle to be overcome will be the immense ice barrier, a mystery of the Antarctic, which stretches for miles 200 feet in height

Dog sleds and motor tractors will be used to penetrate the Antarctic region

Five hundred miles from the pole on the ice fields a supply base will be established From this Byrd and his flying companions will make the 1000 mile dash to the pole and back.

Fingerprints Found on Deadly Missive Add Impetus to Search

New York July 28— Secretary Pa became the operating center today as New York detectives seeking the person who placed an 18-inch dynamite and suitable for taking an incalculable toll in human life and property here, in an Interborough Rapid Transit Co tunnel under the east river

A close analysis of the main charge in the bomb disclosed that it was of a type made only by one manufacturer in the United States and he is located in Scranton according to authorities in charge of the investigation

Fingerprints other than those of the trackwalker who found the deadly missive were found on the bomb and these last added impetus today to the search of police for the person who placed it in the tunnel

Alarmed by the ease with which anyone on a destructive errand may enter the subway tracks police and travel through them planned today to maintain guards at all entrances, especially those leading into the dock yards

40 STRIKEBREAKERS TO TRY REOPENING MINES

Operator Calls on Sheriff To Protect Men, Donahey Prober Expected

Port Liverpool July 28 Forty strikebreakers imported by the Segar Coal Co from Pennsylvania who have been quartered in a local hotel several days today prepared to go to West Point a village near here and endeavor to reopen the company's mine there

Plans for an effort to break the strike which has tied up the Segar mine since December were announced by John Segar president in a letter to Sheriff George Wright of Columbiana County in which he called upon the sheriff for protection for the strikebreakers

The sheriff and a deputy hurried to the village today prepared to cope with any possible trouble

Col Rupert Hautleich of the Ohio National Guard detailed by Gov Vic Donahey to conduct an investigation of charges of violence against the strikebreakers made in telegrams to the governor by coal company officials was expected to arrive here early today to begin his probe

The 40 miners were removed from West Point early this week, following threats of violence against them, after the sheriff suggested this procedure to officials of the coal company.

GRADE CROSSING ELIMINATION IS PROBABLE HERE

Marion County Likely To Share in State Plan for Safer Highways

Marion County has an excellent chance of having one of the dangerous grade crossings included in the list of 40 in the state which will be eliminated by the state highway department before the end of next year.

A statement made public today by *State Highway Director George P.* Schlesinger outlined plans of the highway department to eliminate the most dangerous crossings in the state in conformity with provisions of the Sullivan Act.

The act, passed at the recent session of the Ohio legislature, provides for the increasing of the state gasoline tax from two cents to three cents a gallon. The amount to be received from the extra cent tax will largely

The traffic on this road which comes south from both the Upper Sandusky pk and the Pennsylvania road is now heavy as any in the county.

Five Completed

Work on the separation of five grade crossings in the state has been completed, it was stated at the highway office today.

Schlesinger declared also that the highway department expects to complete *work next year in reconstructing 15* bridges on state highways crossing railroad tracks. This work will be possible *he pointed out, as a result of the* enactment by the state legislature this year of the Norton Highway Modification Act.

They Called Her Scrawny But Not For Long

Is your face drawn and pinched? Your skin flabby? Are your cheeks sunken with great hollows under the eyes? Does your figure show unbecoming angles instead of the softly rounded slimness of youth?

All these conditions rob you of attractiveness and make you look old. But worst of all, these may actually be the symptoms of simple anaemia—that dread ailment so often suffered by women.

There's nothing so good as McCoy's Tablets to put on firm flesh, round out face and figure and build up rich, red blood.

So if you need a few pounds of flesh to round out the hollows, if you want to get back oldtime energy and health, get a box of McCoy's Tablets today. Just a short treatment will make you look and feel like a new person.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 *sixty cent* boxes of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds *and feel completely* satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

72 CHINSE KILLED IN AMMUNITION EXPLOSION

Dump Blows Up in Hankow and Spreads Fire; Severe Fighting Reported

Shanghai, July 28—Thirty-two Chinese soldiers and 40 civilians, including several firemen, were killed in the explosion of an ammunition dump and subsequent fire in Hankow, according to word reaching here today. The fire was burning fiercely when the dispatch was filed.

Severe fighting continues along the Tsinpu front. Large numbers of wounded are reaching Nanking daily from that region.

Nanking reports that 35,000 Nationalists (Cantonese) have been moved towards Wuhu and Nanking preparatory to operations against the Wuhan forces.

About 22,000 Wuhanites have been landed in Kiukiang and are being moved toward Changsha. Reinforcements are being sent constantly out from the southern army base in Hankow.

Approximately 10,000 reinforcements have been dispatched northward from Pukow in an effort to halt the Northerners' advance. A heavy force of Cantonese remains in Nanking.

Michael Borodin, former Soviet adviser to the Hankow government, has gone to Chenchow, enroute for Russia by way of Shensa on a special train.

CLERK OF COURT KOONS STARTS NEW TERM AUG. 1

Bond for $10,000 Approved by Board of County Commissioners

Harley E. Koons, clerk of Marion County Court of Common Pleas will begin his second term in that office next Monday, Aug. 1, according to the Ohio statute to that effect.

The $10,000 bond placed by Koons was approved this morning by the Marion County commissioners at a special session. The bond is listed with the Aetna Casualty & Surety Co., of Hartford, Conn.

Koons' second term will be for two years and will end July 31, 1929. His [illegible] are four [illegible] year term hereafter.

According to a law passed at the last session of the Ohio legislature, the term following the second term of Clerk Koons will be three years and nine months.

The session of the Ohio law making body was made so that the successful candidate will take office in January following the election instead of the following August.

The long term election will be held in November 1928 and two months later the clerk of courts elect will take office. After the 1928 election, however, the two-year term elections will be held, according to the statute.

Public Debt in County Is Reduced More Than $144,000 in Last Year

Schools and County Show Decrease in Indebtedness; Report Compiled by County Auditor; City of Marion Not Included

With the exception of two, all of the [illegible] divisions in Marion County for the fiscal year ending June 30 show a decrease on the abstract sent to the state auditor by County Auditor [illegible], yesterday.

The grand total of the debts of the [illegible] of the county for the year was $2,202,580.39, which is a decrease of $144,001.03 from the total [illegible] of Marion County last year. The report covers all excepting [illegible] the city of Marion.

Decreases are shown in all of the [illegible] excepting the general [illegible] and the township debt. The [illegible] school indebtedness does not include the city schools.

Under the general school division [illegible] including townships and [illegible] had a debt of $50[illegible] this year the total was $570,[illegible] an increase of nearly $10[illegible].

Township Increase Largest

The township debt shows the greatest [illegible] in the county owing to the purchase of road machinery and a special [illegible] on roads. The debt last year was $2,200 which was spent for [illegible] only. This year the total [illegible] $13,700 and besides the amounts [illegible] machinery and roads includes a [illegible] for the cemeteries.

The city school debt, however, amounts to $65,500 less than the total for the preceding fiscal year. Last year the debt was $872,500 and this year $814,500.

County indebtedness which includes improvement of the roads, ditches and the construction of bridges and culverts and the upkeep of the county buildings, this year amounts to $777,095.25 and is nearly $100,000 less than the debt for the same division last year.

The village division debt totals $25,540.10 for the year ending June 30 while last year the total was $39,312.05. Street repair debt alone in the villages amounted to $20,000 during the past year while during the preceding year a total for that purpose was $25,400.

The Marion County sinking fund this year amounts to $165,550.17. Bonds totaling $81,738.88 in the fund are held by trustees of the sinking fund.

Range of the interest on the bonds of the debts of the various county divisions is from 4½ to 6 per cent. Village and township debts draw 6 per cent interest and the other debts have no uniform rate.

TWO HOCKING VALLEY MEN ON HONOR ROLL

Harry Hoch and E. B. Haldy Cited for Special Safety Service

Two employes of the Toledo division of the Hocking Valley Railroad, of which Marion is a part, were placed on the roll of honor of the Hocking Valley this month. They are Harry Hoch, inspector, and E. B. Haldy, brakeman.

Inspector Hoch was cited for observing a broken wheel on a passing train. M. A. Kinney, superintendent of motive power on the Hocking, gave his name for the honor roll. Brakeman Haldy was cited for the honor roll by W. W. Houston, superintendent, for signaling an engineer to use emergency brakes to avoid crashing into a wreck.

RITES FOR E. B. RHODES HELD AT COUNTY HOME

Funeral services for Eugene B. Rhodes, whose death occurred at the County Home Tuesday, were held at 10 o'clock this morning at the C. E. Cupis & Co. Funeral Parlors with Dr. J. D. Darling, pastor of Wesley M. E. Church, in charge. Burial was in Marion Cemetery.

REMOVED TO HOSPITAL

Mrs. Joseph Smith was removed to City Hospital from her home, 580 Bellefontaine ave, yesterday afternoon in the M. H. Gunder invalid coach.

WETMORE SAYS NO DANGER OF IRISH OUTBREAK

Former Marion Man Says O'Higgins Assassination Does Not Create Crisis

No crisis is likely to develop in Ireland as the result of the assassination of Kevin O'Higgins, according to an opinion expressed by J. H. Wetmore, former Marion man who until recently was in the United States consular service at Dublin.

The assassination was not of sufficient significance to cause turmoil in the ranks of Irish citizens, Wetmore stated in an interview at Columbus, where he has established his residence. Following his recent resignation from the consular service he became connected with a Columbus mortgage company. Wetmore was assistant cashier of the National City Bank & Trust Co., here prior to accepting appointment with the government during the administration of President Harding.

Result of Unrest

The O'Higgins assassination, Wetmore states, was one of the occasional outbreak of violence characteristic of the country and which may be expected from time to time until the day comes when the situation rights itself.

"O'Higgins as minister of agriculture had accomplished some great work in the way of improvement of conditions of the farmers in Ireland," the former Marion man says. "He was a political power, it is true, but his passing, lamentable as it was, does not mean the collapse of any party and is of no far-reaching effect."

Gradual strengthening of the Free State plan in Ireland is predicted by Wetmore, who does not believe that the DeValera idea of complete separation from England can be accomplished. Recent elections, he said, indicate that the DeValera idea is steadily losing ground.

Many Coming to U. S.

"One of the striking signs I perceive," Wetmore said, "is the immigration to the United States. At Dublin we passed on more than 100 applications a day for visas."

Wetmore's photograph appeared in connection with a report of the interview published in a Columbus newspaper yesterday.

Venetian ladies of long ago whitened their hands with a pomade compounded from lilies of the valley and clarified lard.

Epworth Seniors Win; Calvary No. 1 Cinches Title

SPORT SAUCE

BY EDDIE SCHOFIELD

MARION baseball fans are not over the news to sweet that Manager Francis W Bacon of the Athletics will be with the local club the remainder of the season

Manager Bacon who also plays second base has put least the Amber Chemical Leaguers in the Mix for and will be here every Sunday for the games

Incidentally Bacon is regarding as other well known athlete as owner and manager of the chemical plant J B Wilbur better known as Bib will ral ap at center as soon I Dolan to become inactive of athlet a in the college For this reason he is the leading of his plant

By Wilbur or other single person has done so much for baseball in Marion as has Bacon in the two stay in this city He will be at a spring that is lacking of to all a especially by those who are interested in athletics

Bacon will leave Monday to take up his new duties in Mt Gilead

* * *

ROY RICE pulled the iron man trick during the first three days of this week—and got away with it He pitched three games in as many days and won all of em

He beckt Anthony Cleaners to a victory over the Mansfield Journal Dixie All Stars Monday night to start off the week Tuesday night he pitched Epworth Seniors to a win over St Marys and last night he did the same trick for Epworth Seniors while they trimmed Epworth No 1

Roy isn't complaining of a sore arm but he probably won't pitch any more this week

AND now Forest Lawn comes forth with another protest that Ralph Clark stellar outfielder of Wesley M E is not eligible to play because of his attendance record at Sunday School The commission will look into the affair and take it up at the next meeting It makes the third protest to come before that body the next time it does don't meet for another week there probably will be a couple more added

* * *

PRETTY soft for Calvary No 1 It didn't even have to play to win the championship last night But regardless of its record up to this time we have it from 'the inside that Calvary expects to win its next two games anyway One of them is with John Clarks Epworth No 1 outfit Get ready for the fireworks

Roy Rice Hurls Smarts' Outfit to Victory Over Epworth No. 1; Score, 3-1

Allows Only Three Hits in Third Game in as Many Days; Calvary No. 1 Automatically Takes Pennant in First Church League

BY EDDIE SCHLONSKI
Sports Editor The Star

CALVARY NO 1 baseball fans players today are happy as the first Sunday School league This cinched the title but might as to be sure the title was cinched for them Calvary didn't even have to play

It all happened when Earl Smarts Epworth Seniors turned in a victory over their most bitter rival John Clarks Epworth No 1 outfit The final score was 3 to 1 It was a postponed affair the first game several weeks ago resulting in a 4 to 4 deadlock The contest was staged at Lincoln Park before a fair sized crowd

The superior pitching of Roy Rice combined with excellent support in the field was largely responsible for the Seniors' triumph A glance at the box score also reveals that every man on the winning team recorded at least one hit with Hamer getting two Incidentally Roy won his third game in as many days last night and allowed only three hits while performing the feat Wes Griffin opposing mound man gave 10 singles

Seniors Score First

The Seniors scored first in the crucial contest making two runs in the second inning Prichard reached first on an error, Fetter got a single and both scored on Sharrs single

Epworth No 1 counted its lone tally in the third stanza when Wolf scored on Hinkins hit It only threatened on one other occasion In the sixth inning Griffin and Miller landed on base with only one out Griffith stole third and Miller second on Hughes sacrifice but the side was retired when Raub popped up a fly to Bud Lawson the Seniors' third sacker

Epworth Seniors scored their third counter in the fifth when Roy Rice made a lucky clash for home Rice was on third when Hamer hunted to Gerber When three Epworth No 1 men rushed forces to catch him Roy pulled a clever dodging act and slipped across the plate The Seniors threatened to score again in the seventh inning but poor base running prevented any more tallies

Brilliant Plays

Each team made two errors but the game was featured by brilliant plays In the sixth inning Bill Reever had three putouts at second base all forces

By downing the Epworth no 1 outfit Epworth Seniors have advanced to first place for second place with their victims and Wesley M E All three teams have won six and lost five games There is no chance of any of them overtaking the league leading Calvary crew which has copped 10 out of 11 contests played Epworth Seniors are playing the most consistent ball of any of the three deadlocked teams and stand an excellent chance of finishing second after their bad start early in the season

Pirates Are Again Leading In National League Race

NEW YORK July 28—The Pirates are leading the Cubs by one game in the National League nightmare today as the result of their 2 to 1 victory over Brooklyn while the Bruins were losing to the Giants Victor Aldridge the Homer schoolmaster held the Robins to five hits and outpitched Dazzy Vance who dropped his fourth straight decision

A four run rally after two were out in the ninth featured by Terrys double with the bases loaded gave the Giants a 6 to 4 win over the Cubs Jack Wilson contributed his eighteenth homer

Cincinnatis winning streak was practically ruined by Kent Greenfield of the Braves who has been winning with greater regularity than a phantom clocker Three star special ever since he escaped from the McGraw influence The Braves won 7 to 2 scoring all their runs in one inning Ray Kolp known as Sitting Bull because he sits in the Cincy bull pen all season started the second game and won 6 to 2 allowing only five hits

At Brooklyn lost, the Reds advanced to fifth place

Gehrig Gets Homer

Gehrig swatted his thirty third homer going Ruth as the Yankees won their fourteenth straight game from the Browns 4 to 1 Pennock limited the Brownies to three hits and Lazzeri walloped his fifteenth homer

The Yanks have won 59 games and lead Washington by 14 games The Nats lost to the White Sox in the tenth 7 to 4

After Fris his homer had tied the score in the ninth and Bells homer had knotted the count again in the tenth the Cardinals nosed out the Phillies in the eleventh 9 to 8 The Cards' pennant chances suffered a staggering blow however when Hal Rhem their star pitcher quit the team after being fined $1 000 for breaking training rules

Earl Whitehill of the Tigers won a 3 to 1 pitching duel from Sam Gray of the Athletics Haimans homer sewed up the game

GEHRIG TIES UP HOME RUN DERBY

New York July 28—The great home run derby is tied up again today Babe Ruth and Lou Gehrig the Yankee home run duo each have 33 for the season, as the result of Lambasting Lous second circuit drive in as many days

Gehrig scored his 100th run of the season on the wallop but Ruth trotted in ahead of him with his 101st run It was Gehrigs only hit of the game and he pilots all the league batting lead to Al Simmons of the Athletics

PRESBYTERIANS DEFEAT FIRST REFORMED, 6-4

Call Sudden Halt to Winning Streak of Reformed Team

PRESBYTERIANS NO 2 called a halt to the winning streak of the First Reformed team of Hill team last night when they defeated that outfit 6 to 4 on the diamond at Fairfield

With the score standing 4 to 2 against them the Presbys came to bat in the last inning and scored four runs before the Reformed could know what it was all about First Reformed could do three runs in the third frame and added one in the fifth The Presbyterians made one in the second and one in the fifth before winning the game with the quartet of runs in the seventh

Presbys In Tie

As a result of the victory the Presbyterians went into a tie with Calvary No 2 for seventh place or rather both teams are now in the cellar First Reformed stayed where they were but had a change in percentage

The contest a postponed affair was won and by a fair sized score Walker pitched for the winners and Williams was on the mound for the First Reformed crew

Three games are carding in the second Sunday School league as a result of the postponed game

First Baseball Tourney of Season Scheduled for Sunday at Lincoln Park

Richwood, Shelby, Mansfield Cubs and Marion Athletics To Take Part in Tournament; Three Games on Sunday's Program

THE first baseball tournament of the season for Lincoln Park will be held here Sunday afternoon with four teams Shelby Richwood Mansfield Cubs and Marion Athletics taking part Drawings will be made preceding the contests to decide upon which teams will be paired against each other

Every team is considered among baseball leaders in this vicinity Probably the best of the three visiting outfits however is the Mansfield Cubs nine a colored team

The Cubs have played 16 games so far this season winning 12 of that number Among their opponents have been the Akron Swinehearts Clevela made up in the second and one in the fifth before winning the game with the quartet of runs in the seventh

Mansfield Strong

The Mansfield team is noted for its fast fielding around with Manager F Bosch in center field and George Avery at second base being the shining lights Haglade Mansfield catcher is noted for his ability to catch would be stealers at second base

Richwood has been going big this year and at present has Ladd Lawrence of Delaware well known member of Moeller a Pets doing the pitching Rogers of this city is playing first base for the Union County team Richwood has defeated Van Fords on several occasions this season

The Shelby nine is noted for its college stars Carter formerly of Ohio State plays second base Price of Bethany College plays first Sutter of Brown is located in the center garden and Barge of Waite High Toledo is also in the field So far this season the Shelby crew has won six and lost three games

Bacon Stays

Marion Athletics will start the day with their regular lineup Manager Francis W Bacon will be with the team the remainder of the season he has announced since he plans to locate at Mt Gilead

The Athletics are doped to win the tournament but there have been upsets The locals look upon Mansfield as their most dangerous opponent

The games will start at 1 o'clock Sunday afternoon with each one going seven innings The survivors of the first and second games will meet in the finals for the title of the day Three games will be played

F C Mackan will umpire the games

No Third Round In Association Loop; Erie Office Is Declared League Champ

THERE will be no third round of ...ecreational ball games in the Association.

This announcement was made today by Secretary P. O. Rudolph of the city recreational ball commission when it was found that only one team was really in favor of a third series. Two other teams signified that they might come in if it was necessary, two others did not want a third round and the sixth Howitzer Co. is in camp at Camp Perry.

It was thought that there would not be enough interest in the third round to make it a success but Rudolph said today that if any of the teams wished to schedule non-league games among them, his office would furnish balls on any Monday night.

Erie Office Champ

With the announcement that a third series will not be played Erie Clerks are declared champions of the Association with a right to compete for the city championship in the Little World Series which will be held with in the next few weeks.

The Erie Office team has won nine out of its 10 games with its closest opponents the Erie Stevedores winning 20 out of 10. The Stevedores won even during the season and run third. The other three teams are clear out of the race.

PRINCE OF WALES' HORSE RUNS AWAY AT HUNT

Melton Mowbray England July 28—The Prince of Wales had an exciting spill while with one of his hunters at Craven Lane Melton Mowbray today. Just as he was about to mount the horse at the loose gallop through the lane gates and ran under a low tree branch knocking the Prince off the horse. He was thrown violently.

New York sportsmen who know the Prince well declare that he is a fearless rider and has been in the saddle since childhood. He has won many cups for jumping and steeplechasing.

A message was sent to Buckingham Palace in London announcing the accident. The Prince was reported resting comfortably.

He may go to Melton Mowbray to meet some of the famous hunters including Tic Toc Reynard the property of Tom Lowther.

The Prince's brother Mr Richard Windsor who is in Chicago with the Prince's party on a visit to the Stockyards and other points of interest in the Windy City.

Mr Richard is a guest of the Prince of Wales and is reported to be a popular member of the party.

The Prince's brother Mr Richard is very proud of the 1930 New York football team who calls to his neighbors in a language which is Greek to them

UNUSUAL JAIL RECORD MADE DURING MONTH

County Prison Starts July with 27 Boarders; Drops to 10 Yesterday

July is going on record as an unusual month in the records of the Marion County Jail.

A checkup reveals that the number of prisoners at the jail has dwindled to nearly one-third as many as were being fed and housed at the first of the month.

Yesterday the number at the jail had gone down to 10, the lowest for the month. Unable to pay fines for intoxication in Marion municipal court late yesterday afternoon, two men were taken to the jail and brought the total to 12.

The first few days of July found a maximum of 27 prisoners at the county building. Since that time the inmates have been steadily released as their sentence expired while arrests and jail sentences have been on the decline.

The jail has 18 cells and when that number was exceeded the first of the month, beds were made for the prisoners in almost every corner of the building.

Administrator Named

Heber Askew has been appointed the administrator of the estate of Robert H. Askew, deceased, by the probate court.

Three Licenses Issued

Three marriage licenses were issued in the probate court late yesterday afternoon and this morning. They were issued to: Floyd Crabtree, 20, Middlefield, miner, and Miss Avanelle Day, 21, of Marion; Oliver B. Blake, 23, Richwood, clerk, and Miss Lois K. Bettles, 22, Marion; Dean L. Wake, 22, Columbus, conductor, and Miss Mary K. Albert, 22, Marion.

Sale of the appraised property of Edward Moon, defendant in the receivership suit brought by Standard Oil Co., was approved by the common pleas court yesterday.

New Trial Refused

Motion for a new trial in the suit of the Marion County Commissioners against the C., D. & M. Electric Co., was overruled in the common pleas court yesterday afternoon. The defendant made the application following a decision in favor of the plaintiff. The suit relates to proposed extension of White-Oaks-rd over the C., D. & M. tracks.

Attorneys Appointed

Parbari & Warner and H. S. Young have been named attorneys for the receiver in the suit of H. A. McKinnon and others against the Murdock Dishwashing Co. A dividend of 12½ per cent was declared, in the common pleas court recently.

Divorce Granted

Harry R. Adams was granted a divorce from Alice Louis Adams on a charge of desertion by Judge George B. Scofield in the common pleas court yesterday.

The divorce suit of Addie Rettig against Mary M. Rettig was dismissed by Judge Scofield yesterday and costs were assessed against the plaintiff.

COMMUNITY SINGING IS LATEST BRITISH CRAZE

Carlisle, July 28—"Community singing," the latest craze in Britain does not go well with the State officials who control the drink traffic in Carlisle.

Declaring that they do not wish to take exception to solo singing in the State saloons, they have displayed notices stating that chorus singing on their premises will not be permitted and they appeal to the public "to cooperate in maintaining this rule."

When Your Night's Rest is Broken

Don't complain when your night's rest is broken and you can't sleep because of bladder weakness. It's time to attend to yourself and the quicker you do it the better for you.

Get a bottle of Marshrest—it's a guaranteed medicine and if it doesn't help you, get your money back—we stand back of it. No doubt it will help you in other ways, too—more energy—strength—ambition. Just ask for Marshrest. It isn't expensive and anyone who is disappointed with its use can have their money refunded. Henney-Cooper sells lots of it.—Adv.

No More Peanuts!

Here's James "Dad" Wilson, who sold peanuts on the streets of Omaha, Nebr., for years. But never again. Oil has been found on a five-acre farm of his in Texas—and "Dad" has been getting $3,000 a week in royalties.

Time creates the matchless, mellow Flavor . . . .

Aged 6 months

Clicquot Club Ginger Ale

YOU find it—this aged, mellow softness—only in Clicquot Club Ginger Ale, and it is there because skill joins hands with Time in the making of this delightful beverage, creating the bouquet and aroma of a veritable vintage.

And what accounts for this haunting charm of flavor? The rare quality of pure, natural spring water that flows from its natural source to a modern, sunlit plant. The choiceness of the flavoring and sweetening ingredients, whose quality is higher than the highest government standards. And—most important of all—this careful process of aging.

With Clicquot Club, as with old wines, this aging releases hidden tones in the flavorings and permits their perfect blending into an exquisite bouquet. One sip, of either the full-flavored Golden or the delicate Pale Dry, reveals the difference that gives Clicquot Club its distinctiveness—that rich flavor no other ginger ale can match.

That is why the offering of Clicquot Club is a compliment to any guest; why its use with other beverages produces such satisfying results. To have it in your home; to order it at your club, hotel or restaurant; to insist on Clicquot Club everywhere, is to show appreciation of those rare qualities which always have made "vintage" wines famous.

Jubilee's Pardner

A Story of Boyhood Adventures

BY JUDD MORTIMER LEWIS

[illegible] going when me and Jubilee [illegible] eyes it was the most coolish [illegible] even since it got hot, and it [illegible] raining and the wind was off [illegible] and I bet if I could of [illegible] gooseprimples off of myself [illegible] had about a quart of them. [illegible] might of done it if I could of, [illegible] use would a quart of goose-[illegible]? I let Jubilee down, and [illegible] my pants between the bed [illegible] I could bark and got up on the [illegible] and tried jumping to them like I [illegible] man and had got a sudden [illegible] nose of my feet hit my pants [illegible] was in the air, and they pulled [illegible] over so that I came down [illegible] of the back of it and when [illegible] hit my nose on the bed post.

I had to go downstairs with my nose [illegible] and my mother was on her [illegible] the stair door to find out what [illegible] made the noise when I fell, and [illegible] was scared when she seen the blood [illegible] out between my fingers and [illegible] thought maybe a burglar had [illegible] trying to cut my head off, and [illegible] my father and sat came out and [illegible] looking at me whilst my mother [illegible] me face over the wash-dish and [illegible] it.

My father asted me how come I got [illegible] so early, and I said lots of [illegible] just come without anyone [illegible] how, and he said a fella's nose [illegible] like someone had stepped [illegible] without their knowing how come. [illegible] I had to tell them how it hap-[illegible], and ther hung onto one another [illegible] waved their hands in the air like [illegible] and laughed till the tears come, [illegible] that is all the sympathy I get [illegible] I am hurt. And is the kind of [illegible] I get when I try to

That is all the sympathy I get

make something of myself. I would run away and be a pirate but a fella can't be a pirate without whiskers, and whiskers have gone out of style.

The Lost Bag of Tripe's folks got a sliding board for his kid brother, and we snuck it out of their yard and lugged it over to the mudhole in the brickyard and slid down it into the mudhole, but it was different from the slippery sticks. By the time we got to the mudhole each time it was just in time to keep us from catching fire and the first thing we knowed we all had the skin off of ourselves.

We were so mad at the Lost Bag of Tripe that we made him lug the slider home all by himself. And we had to wait till scabs came before we could wear our pants. We all feel that this is the worst trouble we have ever had. The slippery-sticks don't do a fella that way. Jubilee is lucky.

Peter's Adventures

A Story for Boys and Girls

BY FLORENCE SMITH VINCENT

EATING UP THE OLD CLOTHES

Peter looked at Great-grandfather's vest and then glanced at his own and sighed.

"Your clothes are not only much more beautiful and useful than mine, Grandfather Always-Catch-It, but they are so much more convenient as well. Now, I put on mine in the morning and take them off at night and put them on again next morning. Why, sometimes I change my suit two or three times in one day, while you Frogs keep yours on all year 'round and they never look worn or shabby, or even a bit soiled."

Great-grandfather winked one eye at the Boy and croaked:

"That's where you are mistaken, youngster. My coat does get worn and

"I PULL MY COAT INTO A LITTLE BALL AND SWALLOW IT WHOLE AND SWALLOW IT."

shabby. When it is real old it splits down the back and I have to pull it off."

"Yes, we pull our old coats from our backs when they dry up and crack open," chorused the Frogs. Peter was puzzled.

"But what do you do with them then? And don't you get very chilly without any?" asked he.

"Ker-chug! Glug! Glug!" croaked the Frogs in glee, and Great-grandfather winked again as he replied:

"But we don't eat our old coats until the new ones have grown on underneath. We could not possibly be without any. We would freeze to death, you know!"

"Eat your coats! What do you mean?" cried Peter who couldn't believe his own ears.

"Just what I say," continued the wise old Frog. "Goodness knows how many times I have swallowed by old clothes. Whenever my coat becomes dry and splits I know it is time to get rid of it. So I shake and twitch as hard as I can to loosen until it falls in folds at my sides. Then I pull out first one leg and then another, until at last I have shed it and hop forth out of my new garments.

"No longer have I any use for my old coat, so I roll it into a little ball, put it into my mouth with my hands and swallow it. It does not taste very good, but it is the best way to get rid of it. I am so neat I can't bear to see it lying about all dusty and dirty and getting into other folks' way."

At this Peter's old friend Froggie hopped forward and said:

"While we are talking of coats, Two-Legs, you may like to know that our Cousin Toad sheds his in the same way and swallows it just as do we. It may seem strange, but once you learn how, it is easy and much less trouble than changing all the time, as do you. But with all this you are not learning how Great-grandfather Always-Catch-It snapped up that boasting Horse-Fly. He promised to tell you, and it seems to me that he has wandered away from his subject."

Next: "Feet on a Fly-paper Tongue."

...fairs by the Wilmington financiers as ... industrial wonder-workers, has fired the speculative imagination of big and little traders all over the country, and the demand for steel stock was such as to overshadow every other development in the stock market today.

Efforts of the professionals to depress prices of General Motors, Baldwin and other market leaders met with only temporary success. Prices declined about 4 points in the first part of the day, but buying orders crowded the market in such volume that these early loses were more than covered.

Chrysler Pass Well

The Chrysler Corp. half yearly report was fully up to expectations, not only in the net earnings reported, but also in the satisfactory progress made in the extension of plant facilities. The corporation earned $4.41 a share in the first half of the year, or double the dividend requirement, which compares with $2.58 a share in the first half of last year.

Nash Motors, Chrysler and other popular motor shares were well bought when offerings appeared at slight concessions from Wednesday's closing range of prices. Pierce Arrow preferred was the weak spot in the motor share list, with a fresh decline of 4½ points to 35, and the move in other motor stocks appeared to have been side-tracked.

Railroad earnings reports submitted today showed no special improvement over those of the last week or so, and the present outlook is for a 15 per cent. Decline in net operating income of the prominent transportation lines as compared with the same month last year. But railroad performances have been such as to justify active investment buying of the shares, and there were few offerings of stock at price concessions today.

RUBBER MARKET

New York, July 28—Trading in the outside market for crude rubber was quiet today with prices steady. Sellers asked 38⅝ cents for spot and July ribbed smoked sheets, 38⅝ cents for Aug.; 37⅛ cents for Sept.; 37⅝ cents for Oct.-Dec., 37⅜ cents for Jan. March.

COTTON

New York, July 28—Cotton prices opened lower today, down three to eight points. October opened at 18.88, down 08; December 18.96, down 08 and January 19.00, down 05.

RECOGNIZE NO CHANGE IN CONDITION OF AKRON MAN

W. E. Smith in Conscious State at Irregular Intervals, Attendants Announce

No change could be noticed today by medical attendants in the condition of W. E. Smith, 67, Akron, who is laying near death at City Hospital as a result of an auto accident Monday afternoon in which he sustained a fractured skull.

Smith and his wife, who was also injured in the accident were reported to have spent a restless night and no favorable statements in the condition of the injured man could be given this morning. Mrs. Smith, however, seemed slightly better and is on the road to recovery, doctors say.

Hospital attendants say that Mr. Smith is conscious and is able to recognize the various members of his family who have journeyed here from Akron. At times, though, he is reported to lapse into an unconscious state.

The couple, on a tour of the state visiting relatives and friends following their marriage, June 20, was injured when the Chevrolet Coupe in which they were making the trip, crashed into the ditch, three miles south of Marion on the Bucyrus pk. Mr. Smith did not recover consciousness until 36 hours after the accident. Mrs. Smith's injuries are not considered serious.

ORDINANCE NO 8787
TO ISSUE BONDS TO PAY THE CORPORATION'S PART OF THE COST AND EXPENSES OF CONSTRUCTING CERTAIN IMPROVEMENTS

Whereas, the City Auditor has certified to this Council the estimated life of the improvement to be constructed from the proceeds of the bonds hereinafter provided for, five years and six months, and the Council estimates that a tax for said bonds will first appear on the duplicate by the Tax Year of 1928, and that the final tax settlement with the County Treasurer next following the maturity of a tax for the issue in the Annual Budget by the County Auditor, as provided by law, will be received not earlier than September 1st, 1928 and the semi-annual settlement thereof not earlier than March 1st 1929, and that no interest will be required until such taxes are collected and available now therefore,

Be it ordained by the Council of the City of Marion and State of Ohio, two-thirds of all members elected thereto, concurring:

Section 1. That for the purpose of raising money for paying the corporation's part of the cost and expenses of constructing sidewalks on Harlow Street south side from State Street to the east terminus; Dickens Street, south side, from Davids Street to the east side of Mound Street; Bellefontaine Avenue north side and on east side of Chatfield Road from Burke Avenue to Maynard Avenue; Sheridan Road south side from Bellefontaine Avenue to Lot No. 12,167; Sheridan Road south side from Burke Avenue to the east terminus of the street; both Maynard Avenue, both sides, from Chatfield Road to Sheridan Road, both sides, from Chatfield Road to Sheridan Road, in the sums of $1,948.00, $1,948.00, and $1,948.00, respectively, or $5,844.00, and pursuant to a total amount of $23,528.97, in the City of Marion, Ohio, it is hereby declared to be necessary to issue and sell, and there shall be issued and sold bonds of said city to said sum of $23,528.97.

Section 2. Said bonds shall be of the denomination of $500.00 each, except the first one, which shall be in the sum of $528.97 and shall be numbered consecutively from one (1) to eight (8), both inclusive, and shall be dated no later than September 1st, 1927, and shall draw interest at the rate of five per cent per annum payable on the first days of March and September in each year, beginning with the 1st day of March, 1928, upon presentation and surrender of interest coupons to be attached to said bonds bearing the facsimile signature of the Auditor, and shall be due and payable as follows:

1 bonds due September 1, 1928.
1 bonds due September 1, 1929.
2 bonds due September 1, 1930.
2 bonds due September 1, 1931.

Section 3. Said bonds shall be prepared by the City Solicitor, be signed by the Mayor and City Auditor, sealed with the City Seal and recorded in the office of the Sinking Fund Trustees; shall express upon their face the purpose for which they are issued, and the fact that they are issued pursuant to law and this ordinance; shall be payable, both principal and interest at the office of the Treasurer of the City of Marion, Ohio, and shall be sold under the direction of the Finance Committee of Council.

Section 4. The proceeds of the sale of said bonds, except the premium and accrued interest thereon, shall be placed in the City Treasury to the credit of the following funds, Corporation's part of constructing the following improvements:

LIQUOR FINE FUND PAID TOWNSHIP, SAYS AUDITOR

Thomas Takes Exceptions to Finding Made by State Examiner Marshall

Marion township and the state have paid their full shares of all fines collected by former justices of the peace of the township in liquor cases, County Auditor Earl E. Thomas said today, following the report of Hinden Marshall, state examiner, filed yesterday.

In his report Marshall declared that the county had received the share of the liquor fines which should have gone to the township.

Auditor Thomas takes exceptions to the finding made by Marshall and declares that both the state and Marion township were paid $1,898.05 each, May 11 of this year.

A sum of $1,272.45 collected in the office of former Justice of the Peace Joseph Justice was paid to the state and the same amount to the township.

M. O. Stoll, also a former justice, collected $420.50 which was sent to the state. Thomas says.

"THE LAW OF THE PACK"

Predatory animals pursue their preys in packs. The law of the pack is to follow the leader and stick together until the kill is made and then each member gorges on the victim of the pack's pursuit.

In the great north woods there are countless numbers of deer to each predatory animal, yet the deer becomes victim of the predatory animals because of the law of the pack.

In the State of Ohio there are over a million motorists and a few oil companies, yet the motorists are at the mercy of the oil companies, because the oil companies follow the leader and observe the law of the pack.

Oil companies that do not follow the leader and observe the law of the pack, immediately become a victim. Successful pack hunts in the past have taught them the effectiveness of the ceaseless hunt which is conducted in the form of a price war.

The pack is now pursuing the Low Price Filling Station, hoping to put this station out of business by a local price war and afterwards divide the patronage of all motorists among the members of the pack at greatly increased prices. Motorists who patronize the price war stations, which sell here at a ruinously low price and elsewhere at a high price to make up local losses, quite innocently assist the destruction of the local victim.

The Low Price Filling Station introduced a new method of merchandising gasoline directly from tank cars, avoiding the useless distributor, and do away with expensive upkeep of bulk stations, tank wagon service and numerous elaborate and extravagant oil stations that are such conspicuous evidence of the immense profits of past high prices.

This new method of selling direct from tank cars to motorists has alarmed the predatory pack because it interferes with a distributor's profit of several cents a gallon. The success of the first station with it's immense saving to motorists has caused this idea to spread, and to crush it, the law of the pack is being applied.

Just as certainly as this station brought low prices, so certain will it's destruction by the pack cause a return to the former high prices.

To buy 14c gasoline for a short time may mean 21c gasoline for a long time.

Motorists should have the privilege of knowing the grade of gasoline they are are buying. This same privilege is guaranteed when food products are bought and pure food regulations have been adopted to prevent fraud by adulteration. In certain cities where we have stations, chemists tests have proved that certain companies are selling the same gasoline at the same station out of one pump for 15c and another pump at 19c.

The only protection to the motorists is a law that will force the gasoline stations to place on their pumps the grade and quality of gasoline offered for sale.

Unless motorists sustain the Low Price Filling Station in the present price war, they will themselves become the victim of the pack in its attack upon this new method of dispensing gasoline, which has had the effect of reducing the former high price of gasoline much below what it is in neighboring localties.

This new method of merchandising gasoline makes it possible for us to sell gasoline at 2c above the delivered tank car price, whereas the old method of distributing gasoline necessitates a margin of at least 6 cents to 7 cents to show a profit.

Although the grain belt governors favor enough the McNary Haugen bill and have several times met President Coolidge for conferences it is their realize that probably an... awaits the measure when and if congress passes it again It will be re introduced in the new congress in December and probably will pass But even the most ardent McNary Haugenite admits there is little prospect of passing it over a veto

Suggestion Finds Favor

Therefore a casual suggestion thrown out by Gov Albert C Ritchie of Maryland that a conference of the leading figures in the financial economic industrial and agricultural world might be helpful found increasing favor among the westerners as the governors conference broke up today

Several of the governors would like to see President Coolidge himself call the conference But if he is unwilling they believe the idea is feasible with White House support This ... that the opposition to the McNary Haugen bill centers in the great consuming industrial centers of the east Others believe that if men of the type of Judge Elbert H Gary of the United States Steel Corporation Owen D Young who collaborated with General Dawes in the formation of the Dawes plan and the most powerful bankers of the east could be got around the same table with spokesmen for the farmers the easterners could be convinced of the seriousness of the situation and possibly a constructive program evolved

Want Equality

The great industrial states of the east have grown prosperous on the protection afforded them by the existing tariff said Gov Adam McMullen of Nebraska We don't want to tear it down All we of the west want is to be brought into the circle of prosperity which the government has helped to create for industry for the railroads for the banks and other great basic economic factors We want not favors but equality

Governor Hamill of Iowa Governor McMullen of Nebraska Governor Christensen of Minnesota Governor Paulen of Kansas and Governor Sorlie of North Dakota comprising the farm bloc in the governors conference all expressed interest and approval of Ritchie's conference idea

Question of Education

Even if one of the industrialists and bankers could be got around the same table they could specially be convinced of the seriousness of the situation and the need for immediate action

"After all said Governor Hammill it is largely a question of educating the east to the situation

The governors conference stood adjourned today and the remaining executives embarked from this historic spot this morning for a trip through the upland lake region and to inspect the docks of the Soo They will scatter to their homes tonight following the dawn outing

APPEALS COURT GRANTS DELAY IN CROSSING CASE

Continuance in C, D & M. Highway Controversy Follows Request of Plaintiff

The hearing of the suit of the C D & M Electric Co against George Schlesinger state director of highways scheduled for today in the district court of appeals at Lima was ordered continued by the court recently upon request of William P Maloney attorney for the plaintiff

Maloney applied for the continuance of the case claiming that two of the witnesses for the offense were not available for the trial It has been announced that the hearing of the case will be held in this city within the next 30 days

Contention Year Old

The suit is a result of a controversy between the C D & M Electric Co and county highway officials which has been in progress for more than a year

The hearing in the court of appeals was filed on the appeal of the C D & M following a recent decision in the court of common pleas in which Judge Scofield authorized construction of the crossing as planned by the state highway department

The case is regarded as the most important crossing litigation coming before the local courts in recent years In the dispute the state department of highways proposes to have the road way go over the tracks at an oblique angle similar to the crossing now in use while the C D & M Co insists that the crossing run east and west over the tracks

Favored Highway Plan

Judge Scofield decided in favor of the state highway plan and at the same time dissolved the temporary injunction which had been granted the traction company

Following the decision, Grover Snyder division engineer of the state highway department, started a force of men to work shaping the crossing according to the state's plans The work was stopped when the C D & M brought action in the court of appeals

Prosecuting Attorney Frank Wiedeman will represent the Marion County Commissioners at the hearing and Edward Turner state attorney general will represent Schlesinger He will be assisted by Grant E Mouser, Jr

CITY'S GARBAGE SYSTEM SHOWS STEADY GROWTH

New High Water Mark Predicted Cash Receipts for Period Starting July 1

That the municipal garbage collection system established in the city of Marion for the purpose of relieving the unsatisfactory condition arising from uncertain collections has been a success from both a financial and service standpoint, was evidenced today, when it was announced that the department now has more than 2,500 subscribers and that the receipts for the period starting July 1, will reach approximately $6,000.

Since the inauguration of the system in 1925 when Service Director Beneker was placed in charge, the system has continued to grow, the start of each period finding new subscribers on the lists with a corresponding increase in the receipts until the period ending July 1 when the collections were but a few dollars short of $4,000.

Increase Predicted

With more than $4,000 collected for the present quarter, the prospects that the total will go over the $6,000 mark are very good, it was stated at the office of the department of the city hall today.

With the increase in the number of subscribers, additional equipment has been added until now the department operates four garbage and rubbish dump wagons and five large rubbish conveyances. As the garbage dump wagons become filled they are taken to the city yards on Olive st where they are hitched to a tractor and taken to the disposal grounds west of the city.

Collections from the downtown district of both garbage and rubbish from hotels and business houses, net more than $3,000 per year. In addition to being self-sustaining, practically all of the equipment in the department has been purchased out of the earnings.

Two Assistants

The service director is assisted in operating the department by William Honaker, who is in charge of the city yards with all the equipment and by Miss Rhea Cardiff, in charge at the office in the city hall.

During the first 21 months of the service ending January 1, 1926, the receipts amounted to $22,712.02 while the receipts during 1926 were $10,083.69. With a continuation of the present growth of the system, the receipts for this year will run well over the $20,000 mark.

The system was established by City Council in 1925 after endless complaints had been received by the health department of conditions resulting from a hit and miss system of collecting garbage. The system was patterned after the one in use in Mansfield.

DEADLOCK CONTINUES IN OHIO COAL MINE STRIKE

Little Suffering Reported as Period of Layoff Nears Four Months

Columbus O July 28 — Despite threats of Ohio mine operators to re open their mines tied up since March 31 by the strike of United Mine Workers in the general competitive field the deadlock which had virtually paralyzed coal production in the Ohio pits today remained in effect as the end of the fourth month of the up heaval

Little suffering is reported from the various Ohio coal districts among union miners In some cases the miners have been evicted from company houses but anticipating the strike the workmen had accumulated considerable cash reserves prior to the walkout and many have found other employment at harvesting and other farm work highway construction building in the pottery and steel plants and other factories

Considerable stocks of coal accumulated in anticipation of the strike augmented by heavy shipments from non union fields in West Virginia Kentucky and Pennsylvania are said to have maintained an adequate industrial supply to date while domestic consumption has been at a minimum through the summer months

The strike in Ohio has been marked by its peaceful character two or three isolated sporadic outbreaks being the only violence reported

75 TROTZKY ADHERENTS EXPELLED FROM PARTY

Third as Many More Sent to Government Posts in Siberia

Moscow July 28—More than 75 adherents of Leon Trotzky and Gregory Zinoviev leaders of the left opposition elements in the Russian Communist party have been expelled summarily from the party this year

A third as many more have been sent to Siberia not in exile but to governmental posts tantamount to exile Their movements are watched day and night by agents of the G P U the government political police successor to the Tcheka

This became known today on the eve of the meeting of a plenum of the central executive and the central control committees of the party which has been called for July 30 to vote on Trotzky and Zinoviev's banishment from the central committee Such banishment would amount to political if not physical exile

The decks have been cleared said one party leader admitting that the implication was that the proletarian dictators headed by Joseph Stalin had for months been knocking the props from under the opposition in preparation for a safe and painless explosion of Trotzky and Zinoviev

An exchange suggests that Mr Politician study the ideals of the people Must be trying to die o cringe him

It is not certain that we actually know anything says Arthur Brisbane We never anticipated an admission like that from Arthur

What I can't understand remarked the fellow who lives next door on the way down town this morning is how old Solomon with six or seven hundred wives ever acquired a reputation for being wise

George M Cohan says he's a stranger on The Great White Way And all these years we have assumed that he lived but Forty Five Minutes from Broadway

At the age of six says the St Louis Globe Democrat an illuminated sign of Ice Cream will produce a thrill But why must it be just six years old and illuminated to do that?

Great Britain and Italy having taken action along the same line Paris now notifies Moscow to withdraw her agents from France It begins to look as though the whole world is beginning to see bolshevik Russia through Uncle Sam's spectacles

Since Douglas Fairbanks has explained that he takes his exercise in his gymnasium and plays golf only because it's an art we have begun to understand the game of some of our friends We knew it wasn't golf

We of the pictures says Mary Pickford are of the moment only Considering the number of moments Mary has been hanging on it would make the impressive total a lot easier to remember to reduce it to decades

Since Sir Charles Highman has called our attention to the matter by saying that Calvin Coolidge was the first man I had seen in the United States whose shoes were shined we've been wondering if maybe Calvin hasn't put something over on the rest of us by using liquid polish

Other months may vary in the wide range of weather offered thereto from year to year remarks the Detroit News but July is almost always July Which reminds us of the number of times this month we have turned on the gas in the furnace and lighted the grate

Maybe all Jack Dempsey was trying to do was to convince Sharkey that there was merit in his Dempsey's contention that their belt lines should be painted where belts are customarily worn Sharkey seemingly having acquired the view that the belt line is something like two or three inches below the chin

Aimee Semple McPherson repents that she has no confession to make that she has told the truth and walked in the light And we'll say you told it dramatically Aimee We are yet thrilled by your tale of that dash in jumps which you happened to be wearing while bathing over the burning sands of the desert under that hot Mexican sun

Opening of the Chautauqua.

The Marion County Independent Chautauqua to which no inconsiderable element of our community has been looking forward for weeks got under way at the splendid pavilion in Garfield park this afternoon and will continue its sessions until and including the coming Tuesday

From its very first Marion county has been very fortunate in its Chautauquas In fact of all of them we can not recall one which had more appeal than the original one here Perhaps it was the novelty of the thing to the most of us It must have been because it was under a tent and a tented exhibition exposition or whatever term you may apply to it has a charm for us of America No matter what the reason Marion county's first Chautauqua is one of our most pleasing memories

And all that have been given since have been good Some have been better than others It was inevitable that such would be the case But the standard of all of them has been high and if the remainder of the program now in progress be no exception to the rule Chautauqua will be no exception to the rule It has been the habit to meet every issue of a Chautauqua trend It offers lecturers vocalists musicians magicians chalk talk artists and performers of the drama—and all of them come to us with reputations which are high ones

Our tastes often are not alike What appeals to one may not appeal to another In this we have in the strength of the Chautauqua which has endured so long And speaking of preferences we note the Judge George D Alden an old Marion favorite is to speak on The Needs of the Hour To us no Chautauqua number ever has had greater appeal than those filled by the eloquent judge whose gifts as a platform speaker are unbounded

High Prices Their Undoing

[illegible] Yorkers [illegible] New York theaters [illegible] is attributed to and a [illegible] and [illegible] for defrauding the government on [illegible] tax in that they failed to pay fifty per cent of the profits they realized for it here is said at more than fifty per cent more over the price printed on them

If it does not represent the result of the government's investigation of the rackets which has been practiced upon patrons of New York theaters [illegible] is just the beginning Many agencies will be compelled to face charges as the result of the campaign Their cases simply haven't come up yet

The government of course is not acting to redress the wrong done the public Its position is simply that if the public has been held up it wants and proposes to have that portion of the hold up to which it is entitled by law or know the reason why

The public of course will not be recompensed for the amounts of which it has been victimized even though with its tacit consent in the past but after a few ticket brokers have served jail sentences and been made to pay heavy fines their kind may decide that the get rich quick games they have been working upon the public isn't all they took it to be and they may be content with the fifty cent charge preferring less profit and liberty to more profit with attendant fines and time spent behind the bars

Visitors in New York City—for they are the ones who keep New York theaters open not the citizens of New York—have been compelled to pay extreme prices for very ordinary shows It is bad enough when in addition to the box office prices they are compelled to pay an additional price to secure desirable seats without having to pay two or three times the box office price or miss the shows they may have gone to New York to see

There are some reasons why theater prices should be higher in America than abroad Stage people and orchestras are paid more here than in Europe and theater rentals are much higher But we have never been able to understand why the theater patron is compelled to pay $6.60 in New York to see a performance which he can see put on over in London in fully as fine a playhouse and often a more comfortable one by the same company or even a superior company of American players for five shillings and six pence or $1.32 in United States money

The theatrical producers hold the movies responsible for the sad condition in which the stage finds itself today One of these days they may awake to the fact that their exorbitant prices brought about their undoing but with them they killed the goose—a splendid name for the public in this case—which laid the golden eggs

Speaking of the advantages of bridge as a gambling game a Youngstown paragrapher says You pledge your social standing instead of walking home in a barrel which inclines us to wonder if possibly he hasn't been playing poker with Marion's leather apron crowd

State Senator Joseph S Ackerman of Cuyahoga county proposes a course at the Ohio State university in the training of policemen and detectives which is the first indication we have had that the senator is a humorist

Possibly no one yet has put it quite so well as Philip Guedalla who says that Russia is the crowning example of a country where all the lunatics have got out of the asylum and into politics

Press Agent Ivy Lee's little plan to pave the way to the recognition of the Russian soviet government by having the United States chamber of commerce establish a branch in Moscow may have appealed to him as clever but it was not enough so to fool that organization which turned it down cold Lee is said to be the highest paid publicity man in this country which makes us wonder what is his price for what many will consider his attempt to betray his country

We are told that the world is constantly showing progress but it may be noted that it is the exceptional con of today which produces the milk punch of the good old days

A Los Angeles motion picture actress is seeking a divorce from her husband on the ground of fraud alleging that she never would have married him if she hadn't lost her dog Instead of helping to find her dog the defendant in the case drove her over to Goldfield in Nevada and persuaded her to marry him as a sort of a preliminary to the search and then left her flat never making any further attempt to locate the missing canine We have come upon many excuses for marrying but this is the first marriage of which we ever heard entered into for love of a dog for which it is evident the husband proved a very indifferent substitute

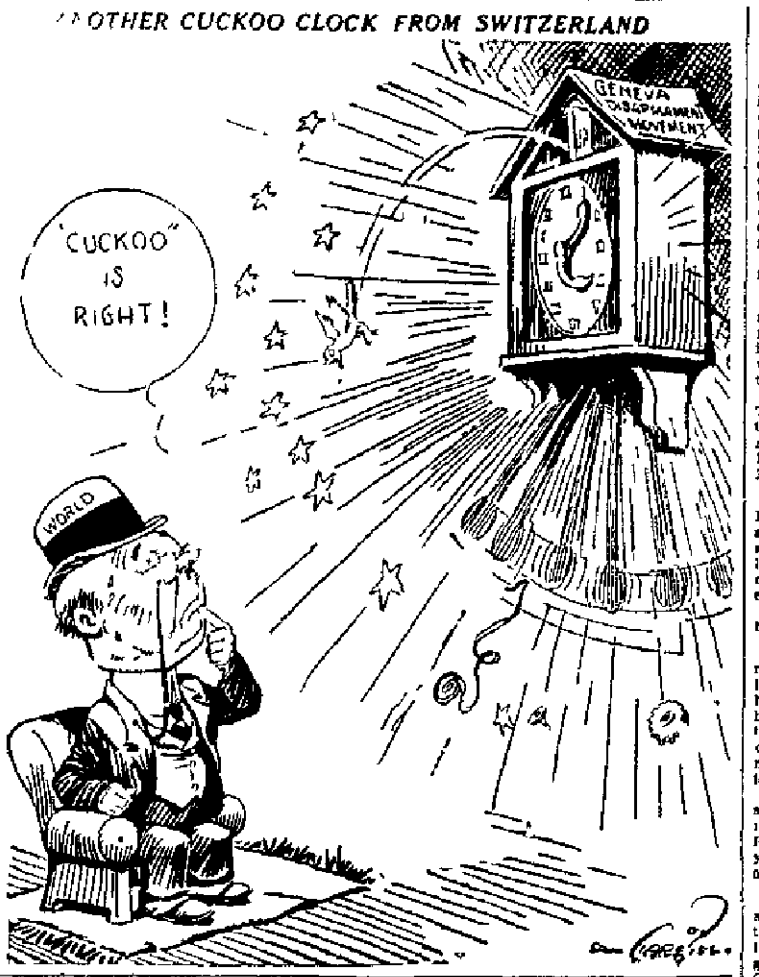
ANOTHER CUCKOO CLOCK FROM SWITZERLAND



Sugar and Starches in Moderation.

BY ROYAL S COPELAND, M D

May I venture to give you a little advice about eating I shall [illegible] to criticize every meal you eat but what your health depends largely on the breakfast On this account you [illegible] your day right

For some reason Americans have chosen to crowd into the meal a number of the rich dishes most of them belonging in the dessert class

You will recall that fats are classified as protein fats and starchy foods In addition we have the minerals and vitamins

The chief foods that are the sugars and starches These I gather with the fats are the heat and energy producing foods When the necessary heat and energy have been supplied the surplus is stored up in the body fat Just too much of the carbohydrates and fats is likely to add unnecessary weight

But this isn't all Fermentation and excessive acidity are among the evil effects of taking too much of these particular foods

An hour or two after breakfast do you have heartburn feeling of gas flowing abdominal discomfort faulty mental or work headache or any other symptom of physical disability? If you do it may well be that you are the victim of the wrong choice of foods or of eating too much at the morning meal

I wonder what proportion of persons suffer this way? What has been your experience? Does the season make a difference?

Our eating is seasonal Our breakfasts are governed in good deal by the time of year This is as it should be because we have more need for heat producing foods in cold weather Because we must hustle to keep warm we need more energy producing foods

The fats and carbohydrates are essential to persons engaged in manual labor or hard physical exercise Even in warm weather they are required

It is an item of note with persons in sedentary occupations Desk workers and all others who exert use their muscles are in less need of these foods

What are the common breakfast dishes? Fruits cereals toast muffins pancakes syrup sausage bacon eggs ice cream and sugar

With the exception of the cereals fruit every one of these articles is wholly or partially a carbohydrate or a fat The fruit has other and most important qualities—so has the egg and the sausage too But all the rest even though they are valuable foods should not be taken in excess if dietetic good acidity are to be avoided

It is a mistake to eat too much at any meal but particularly at breakfast time Temperate eating should be your daily practice If it is necessary to make a real sacrifice leave out some of your carbohydrates and fats

TODAY AND TOMORROW

The derrick lamps make carnival through the corn fields mile on mile in clang be stars

Flaring by hill and valley town and farm the gas flambeaux turn night to [illegible]

And above even the roar of the train as it rushes through there rises the roar of [illegible] pump and bit and the sigh of the walking beam sounds to be known one day no more

Out in Oklahoma sprawling the four horizons like a frenzied nightmare the Seminole oil field greatest the world has known is one year old this month

And already with a thousand rigs forming abandoned farms with the pumps dredging 450 000 barrels of oil a day with all the jazz frontier tramping the twisted rutted main-mile road that leads through pine board fronts to boisterous bowlegs already men are talking in hushed voices of the end

Two months three months more and Seminole wonder of the West will have reached its peak and begun the swift decline

Never again perhaps will there be such a field It pushed the price of crude oil from $2 60 down to $1 30 a barrel It threw oil stocks into a tail spin and Wall street into a furore It drove oil barons become if not paupers stricken at least poorer into conference and plain citizens become millionaires into hysterics

And yet tomorrow an axle too quick tomorrow and the flood of oil will be only a memory and Seminole will have become again a country town a burnt claim out in the black jacks

A living lesson to the American people it should be that something must be done.

If they are to continue to consume their 1 690 000 barrels of oil and their 718 000 barrels of gasoline each day such great sources of supply must be conserved to the utmost

The Seminole field is producing today more than a fourth of the national consumption But what of tomorrow?—Columbus Citizen

A HANGING VERDICT

Something imp stand has happened in Athens Illinois A very prominent citizen has been sentenced to be hanged Charles Birger who has received the attention from twelve of his fellow citizens has been something like a king for several years Kings are not popular in any part of the United States but it is not for acting like a king that Birger has been directed toward the gallows Birger has been found guilty of murder

No one connected with the prosecution claims that Birger killed any one But they do claim that he sent out his henchmen on missions of death and specifically that two of these servants of his did unlawfully slay one Adams who was mayor of a rustic village Many other deaths have been officially attributed to the Birger activities and nothing has been done about it

The more unsophisticated regions of Illinois have for a long time been notorious for their bloody lawlessness Some Illinoisans have been arrested a few have been actually convicted but no serious penalties have been imposed Birger who seems to be an affable person and who surely has the advantage of a pleasing aspect became just a little too contemptuous of public opinion

Unquestionable the hanging of Birger will be highly beneficial to Illinois It will graphically inform his associates and emulators that even in Illinois the business of murder has certain risks It will be unpleasant for the man who is facing hanger but it is as clear as daylight that just such an object lesson is essential for the happiness and well being of the peaceful majority in Illinois—Cleveland Plain Dealer

OLD OAK FOR OLD IRONSIDES

Old Ironsides will have an unforeseen historic interest when reconstructed Almost half a century and fifty nine years to be exact a quantity of live oak was submerged in the Pensacola navy yard for future use for keels keelsons knees and deck planking in the building of the then modern ships of war But iron and steel battleships came along and the oaken timbers resting on the bottom of Commodore pond within the naval reservation were all but forgotten It occurred recently to a thoughtful naval official that perhaps the lumber might still be useful certainly when appropriate Tests proved it to be in excellent condition so it was shipped to the Charlestown navy yard to serve something more than a practical purpose It will give an interest to the ship that could not be had otherwise for practically in its entirety it will be reborn of the same kind of timber that received the commanding of a century and more ago justifying the nickname that has stood the test of years—Boston Transcript

The Way of the World.

BY GROVE PATTERSON

The state of Illinois goes [illegible] execution as publishing [illegible] human progress there The man who introduced the bill probably thought he was getting a great improvement Perhaps he has made the death cell a little more terrible That depends on whether you prefer to be hanged or electrocuted But so long as men have something within them which permits them to kill each other and so long as a group of men called society can kill the killer there is much to be said for progress

Indeed the Bronx has its own folk [illegible] collection of which was some time ago published by Robert A Simon under the title Bronx Ballads—featuring such songs as Original Alimony Rosenthal No More The Monkeys Wedding Quegle and Rebecca Sadie

The Bronx is responsible for the dumbwaiter jargon that popularized Gus Edwards Gross And most of the ideas for Hershfield's comic strip came out of the Bronx Typical of which is the Hebrew leaving a Fifth avenue mansion saying Glad to have met you Mister Vanderbilt—hope to be invited over again some day

New York Day by Day.

BY O O McINTYRE

New York July 28—No borough has quite the flavor of personality as the Bronx [illegible] real old [illegible] It has [illegible] at each of the borough of renowned Manhattan and occupies the northeast [illegible] of the island

It is quite easy to realize when [illegible] reached the Bronx The stores are different the apartment houses are different and people seem just a trifle more friendly A pleasant cross fire conversation in the [illegible] room courts

Babies are not entrusted [illegible] French nurse maids The mothers [illegible] sidewalks sewing or knitting with [illegible] in carriages and in reach Bearded [illegible] appear to have no further worries [illegible] in the parks twiddling their [illegible] wide idinarian ease

Thirty years ago the population of the Bronx consisted mostly of goats Today [illegible] main street glitter Gaudy movie palaces in profusion It has its own daily newspaper and monthly and weekly periodicals [illegible] thoroughly urbanized

Indeed the Bronx has its own folk [illegible] collection of which was some time ago published by Robert A Simon under the title Bronx Ballads—featuring such songs as Original Alimony Rosenthal No More The Monkeys Wedding Quegle and Rebecca Sadie

The Bronx is responsible for the dumbwaiter jargon that popularized Gus Edwards Gross And most of the ideas for Hershfield's comic strip came out of the Bronx Typical of which is the Hebrew leaving a Fifth avenue mansion saying Glad to have met you Mister Vanderbilt—hope to be invited over again some day

The Bronxites do not hesitate to loan their name Many have gone from the East side push cart roar to quiet Bronxonian splendor and they are not ashamed of the travel Many alien in the Bronx is a goy but he is welcome

* * *

The Grand concourse in the upper reaches of the Bronx is about the widest boulevard in the metropolis There are bicycle and [illegible] paths as well as spacious roadways Sidewalks are expansive and there is a majestic sweep to the apartment house Several family houses on the concourse are equal in size and [illegible] opulence to anything downtown There are trees and grass plots lining the thoroughfare and the Sunday afternoon parade is quite as picturesque as that of Fifth avenue Many motorists bound for Westchester county use the Grand concourse

* * *

The Bronx incidentally is known to many natives as the Bronnix The has lost its way travel is on the Bronx expresses

* * *

The Bronx has furnished more popular song writers musical comedy comedians vaudeville monologists and haberdashery clerks than any other section of the city

* * *

When the Bronx was beginning to cast off swaddling clothes the walk up apartments offered the first month's rent free Today there are apartments in the Bronx renting for $1 000 a year and there are plenty of takers

A little shop in the Bronx bears this description on its window

JAMES E WATSON

James E Watson United States senator from Indiana was born at Winchester Indiana November 2 1864 He was admitted to the bar in 1886 and became a member of the fifty fourth and fifty sixth to sixtieth congresses from the Sixth Indiana district Watson was the Republican nominee for governor of Indiana in 1908 He became a member of the United States senate in 1916 to fill an unexpired term and was reelected in 1921 and 1926 He has served as chairman of the committee on interstate commerce

In opposing an extra session of congress to pass flood legislation he said recently

I am unalterably opposed to a special session of congress to begin on November 1 as suggested to the president by Senator Smoot at the summer White House Such special session can serve no useful purpose We reached that conclusion at the flood relief conference in Chicago at which I presided Senator Phil Harrison is of the same opinion and his state is vitally interested in the subject Secretary Hoover who has done wonderful work in managing the relief work assured us that the money needed for relief work was available

Congress will take up the matter of permanent flood relief and this with tax reduction gives us two outstanding tasks Secretary engineers army and civilian, are considering the problems and their conclusions will be available after December 1 I do not believe the Democrats in congress will oppose this general plan The stricken area looks to President Coolidge for relief and about he is the thing the people there would do would be to oppose him in the matter of doing it in a special session of congress

The other outstanding problem is that of tax reduction It seems to me that the tax on corporations should be reduced

The third term issue so called has made little impression in Indiana A great many of people feel that President Coolidge is serving his first out his second term [illegible] he wants the nomination next year and will go after it with all the politics [illegible] he controls he will get it he and dog

Why Tiolene is called SUPER-Pennsylvania Motor Oil

THERE are two sound reasons why Tiolene has been known for years as 100% Super-Pennsylvania Motor Oil.

1—Tiolene is made entirely from the famous Cabin Creek Super-Pennsylvania Crude—one of Nature's masterpieces! Unlike ordinary crude, Cabin Creek is clean, clear, golden-amber in color just as it flows from the ground. It is golden in quality, too, for it regularly commands a premium over *other* Pennsylvania crudes. It is the highest grade, highest priced crude oil produced on this continent.

2—Besides this *natural* superiority, Tiolene's supremacy is further assured by the care with which it is refined. The most approved refining equipment, *plus* expert refining knowledge, preserve in Tiolene *all* of the desirable lubricating qualities of Cabin Creek Crude.

Careful oil buyers know that, when properly refined, "Pure Pennsylvania" oils—those made *entirely* from Pennsylvania grade crude—are better.

Tiolene is "Pure Pennsylvania" oil—and *more!* Since it is refined with skillful care entirely from a *Super*-Pennsylvania grade crude, it is known as 100% *Super*-Pennsylvania Motor Oil. Because of its superior resistance to heat, wear and dilution it gives more miles of safe lubrication.

The *super* quality in Tiolene makes it cheapest in the end.

Tiolene Motor Oil is sold at Pure Oil Company Service Stations and by Authorized Dealers.

Love's Embers

If it was but two or three before Lillian raised her hands clasped them to the waiting tenseness of the story she was. Never in all the years of had she [illegible] but if I could it would not be because

Yet the same possession Mr dee, as it dearly loved Marion as and she loved him to the pleading childishly that I and give her a real father.

I realize all too soon that not only mechanically, just as work and the profession could be men it brought me if I married him there would come the clash between as and Marjorie and that resent the preferment of her inevitably would make. So I went away and though it was wrench the shattering of dream not I have not been How could I be with Ma

[illegible] ired face was illumined with [illegible] ernal love which is the all per [illegible] emotion of her being. My [illegible] bowed reverently before it yet [illegible] ld not help a cynical query [illegible] ch of course I was careful not to

What will happen when Marion mar [illegible] and Lillian is left alone an age [illegible] woman?

Another and more disturbing ques [illegible] n pushed its way into my thoughts [illegible] ough its asking seemed almost [illegible] h subconscious treachery to winsome [illegible] ssed veiled Marion Morton. Suppose [illegible] n child should inherit some of the [illegible] fness selfishness of her father and [illegible] her in years to come the trait should [illegible] mph over Lillian's careful training [illegible] a child.

She stirred restlessly and I caught [illegible] r breath in panic-stricken remembrance of the almost phrase which I had observed in her at different times.

I must be honest with you Madge. Even if Marion should—disappoint—me in years to come I cannot regret [illegible] decision I made concerning Robert [illegible] e ons of his—affection—life itself [illegible] him so far apart from the [illegible] ess of the world and modern liv [illegible] conditions that it would be impos [illegible] for me to make him happy. For [illegible] e I do not care. But I could [illegible] bear to see him unhappy because [illegible] of my failure to meet his ideal of me.

As if it were the echo of a mock [illegible] e little devil I seemed to hear again Philip Morrison's voice speaking scornfully of that aged archaic artist Peter Navarro. Was it possible that [illegible] subconsciously Lillian's ultra-modern self was lonely for the brave companionship which had been hers with Harry Underwood?

The one test to which the apparently irresponsible boulevardier [illegible] had measured up. He was a [illegible] man. He had been Dicker [illegible] friend and within twenty hours [illegible] I had heard Philip Morrison a [illegible] terly dissimilar to my husband [illegible] of also possessed of the qualities [illegible] man deem admirable. Prize Lil [illegible] s fervent husband in terms sur [illegible] al enthusiastic for so reserved [illegible] dent a man.

With a voice that I calmly strove to [illegible] keep I spoke hurriedly.

"Do you know it seems almost un [illegible] that you should be telling me [illegible] t now. I have been wanting [illegible] opportunity to give you some news [illegible] Fraser which Mr. Morrison wished me to give you."
